Training and Placement Cell

The **Training and Placement Cell (TPC)** serves as the platform for interaction between the college students and companies came into existence in our college during the academic year 2022-23. TPC assists desired final year students to get suitable job after completion of their program. However, the training and grooming commences from the very first year. Spotting talent, classification, working on the strengths and weaknesses of students has been the hallmark of our endeavors. TPC conducts Training programs to enhance soft skills and overall personality of students in association with industry and academic experts. Invitation Letters/e-mails are sent to various companies and organizations for conducting campus drives. Internships are also provided to the interested students to groom them to become job ready. The students are given occupational training such as communication skills, time management and stress management skills to be able to adapt to different work cultures and environments. The cell is renewed for every academic year 2025-26
